

## Silicone tubes – fabric reinforced - SILPRESS®

### **Applications:**

Beverage filling technologies  
Medical industry  
Mechanical engineering

### **Quality – standard (in stock):**

Silicone: translucent  
70° Shore/ 60° Shore A

Food quality as per

- BfR XV. Silicone
- FDA § 177.2600

Suitable for sterilisation with

- hot air 200° C
- steam 134° C
- gas (EO)
- gamma rays

### **Fabric – standard (in stock):**

Standard glass fibre

### **Tolerances:**

S2 DIN 7715  
EN ISO 1307 upon request

### **Dimensions:**

Inside diameter:  
ranging from 1.0 mm to 25.0 mm

### **Test pressure – burst pressure:**

see technical data sheet

### **Custom-made product:**

Quality, color or fabric –  
other than standard  
from 500 m upon request
